

EZDraw 520

Wire Drawing Lubricant

Description

EZDraw 520 is a free flowing lubricant formulated with specialized fatty acids reacted with soluble alkalis. It is an extremely versatile, high performance lubricant, suitable for a wide variety of applications using high speed equipment. EZDraw 520 is manufactured under controlled conditions to assure chemical uniformity and moisture content.

Applications

EZDraw 520 is a versatile, multi-purpose lubricant that may be utilized in many applications:

- Low carbon and high carbon steel
- Mechanically descaled or acid cleaned bare and coated wire
- Borax, Phosphate, Lime or Formulated pre-coats
- Stainless steel wire

Operating Parameters

- Up to 14 holes
- A wide variety of rod breakdown and finished wire sizes
- Speeds compatible with the newest machine capabilities and technologies

Properties

Properties	
Appearance	Off-white free-flowing, powder
Solubility	Completely water soluble
% Moisture	1.0 - 2.0 (typical)
Assay	Soluble stearates, borax, nitrites, and additives
Softening Point, °C	>240

Packaging

EZDraw 520 is available in 280 lbs fiber drums or 1500 lbs supersacks.
